

Solution #1

(Acidic De-Scaler /pH Adjust)

◆ **Inhibited to Protect Metal Surfaces**

◆ **Highly Concentrated**

Solution #1 is a liquid highly concentrated acidic de-scaler/pH adjust product. **Solution #1** is designed to de-scale most systems that have hard water/chemical scale buildup on their surfaces. It is inhibited to keep the attack of metal surfaces to a minimum. It is also used in applications where alkaline containing liquids need to be neutralized and/or lowered.

TYPICAL PROPERTIES

Appearance	Clear Amber to Brown Liquid
Foaming Ability	Controlled (low)
Operating pH of Working Solution	.5 – 1.5
Rinsing	Superior
Solubility	Excellent
Specific Gravity	1.4 – 1.5 (water = 1.0)

USING PROCEDURES

For most de-scaling operations, **Solution #1** should be used at 10%-25% b/v. When used to adjust pH add until desired operating range is acquired. Consult your Win Solutions representative for the optimum operating concentrations.

MATERIAL SAFETY

Solution #1 is safe on ferrous metals. Consult your Win Solutions representative for instructions that best conform to your production needs.

STORAGE

Solution #1 should be stored in a cool dry area. Store away from incompatible substances; see an issued MSDS.

PRECAUTIONS:

KEEP OUT OF THE REACH OF CHILDREN. Please refer to the label and MSDS bulletins for all warnings, recommendations for safety equipment and other regulatory information.
