

Solution 265ISW

(Concentrated Alkaline pH Adjust/Additive)

◆ Low Usage Rates

◆ Works in most Acidic Environments

◆ Works Well in Immersion/Spray Systems

Solution 265ISW is a highly concentrated alkaline pH adjust/additive. **Solution 265ISW** is designed to be used when acidic liquids need to be neutralized and/or buffered. Unlike many alkaline pH adjusters, **Solution 265ISW** is highly concentrated so a little goes a long way. It can also be used as an alkalinity additive for alkaline cleaners and paint strippers.

TYPICAL PROPERTIES

Appearance	Clear Liquid
Foaming Ability	Controlled (low)
Undiluted pH	14
Rinsing	Superior
Solubility	Excellent
Specific Gravity	1.28 – 1.30 (water = 1.0)

USING PROCEDURES

For most operations, **Solution 265ISW** should be used to adjust pH to desired operating range. Consult your Win Solutions representative with any questions.

MATERIAL SAFETY

Solution 265ISW is safe on ferrous metals. Consult your Win Solutions representative for instructions that best conform to your production needs.

STORAGE

Solution 265ISW should be stored in a cool dry area. Store away from incompatible substances; see an issued MSDS.

PRECAUTIONS:

KEEP OUT OF THE REACH OF CHILDREN. Please refer to the label and MSDS bulletins for all warnings, recommendations for safety equipment and other regulatory information.
