

WinKlean 2334

(HD Alkaline Multi-Metal Spray Wash Cleaner)

- ◆ Performs at Medium pH Ranges
- ◆ Excellent Wetting
- ◆ Low to No Foam
- ◆ Multi-Metal Safe

WinKlean 2334 is a heavy-duty alkaline spray wash cleaner for both ferrous and non-ferrous metals prior to painting, rust inhibiting, or other finishing processes. Highly fortified with detergents and powerful wetters, **WinKlean 2334** removes most straight metalworking fluids, honing oils, rust inhibitors and other fabrication compounds. **WinKlean 2334** provides an optimum surface preparation for metal to facilitate efficient conversion and deposition treatment processes. **WinKlean 2334** has been used as a workhorse in many spray wash operations and has out performed its expectations time after time.

TYPICAL PROPERTIES

Appearance	Clear Yellow to Straw Liquid
Foaming	Low (controlled)
pH of 1% Solution	≤ 12
Solubility	Immediate
Specific gravity	1.23 – 1.26 (water = 1.0)

USING PROCEDURES

WinKlean 2334 can be used at concentrations from 1 - 10% depending on the soil load. Consult your Win Solutions Representative for specific application instructions that best conform to your production needs.

MATERIAL SAFETY

WinKlean 2334 is safe on most plastic, ferrous and nonferrous metals.

STORAGE

WinKlean 2334 should be stored in a cool dry place. If accidentally frozen; thaw and then roll drum to remix.

SAFETY

KEEP OUT OF THE REACH OF CHILDREN. Please refer to the product label and Material Safety Data Sheets for all warnings, recommendations and other regulatory information. Copies of the Material Safety Data Sheets are available from the Win Solutions office or local representative.
